RE: First Aid/CPR & Fire Extinguisher Training Sessions

Dear Michael:

I would like to take this opportunity to send a thank you on behalf of Corus International for the training provided by Kevin Griegel and Mike Turner for the First Aid/CPR classes and Kevin Griegel and Phil Palczynski for the Fire Extinguisher training.

I have received several comments from the employees here and would like to share them with you:

"The First Aid/CPR class was a very good class. Kevin and Mike make learning fun and they both know a lot about First Aid/CPR. I feel like I learned a lot". – NN

"I thought Kevin and Phil did a real good job". – LM

"I really thought it was a worthwhile training topic. Something that is taken for granted unless you are faced with a situation of using an extinguisher. I thought the presentation was done well and I think that I will be better prepared for a fire situation if ever faced with that". – CS

"I think that everything went very well. The presentation was presented well, but I do think that the training should be approximately an hour rather than 1.5 hours. I think that it was too long and became repetitious. I think that 45 minutes to an hour would be more sufficient". – TH

"I thought the session was informative, but a little long – should be under one hour even with the video. Also, I really don't think they need two people to present. Phil didn't say but a few words and Kevin seemed to know his stuff". – LP

"The Fire Extinguisher Training was very well done and the information was good to know. Now I need to inform my kids". – GM

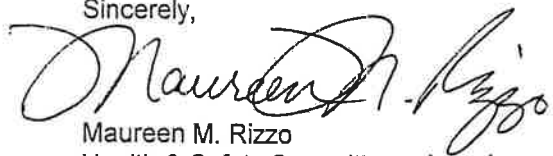

"I thought the Fire Extinguisher Training was very informative and interesting. Overall, it was a great idea". – CK

"Pleasantly surprised...well organized and presented. I especially like the demonstration of what a powered chemical extinguisher can do". – PW

"Certainly more information on Fire Extinguishers than I ever knew existed. Great presentation. I went home and checked out my extinguishers". – MR
